COVERED TRANSPORT

Enclosed transport is essential for the discreet and secure transportation of high value, classic, vintage and confidential vehicles.

Cars in Camera use wide-ranging experience to allocate the most suitable transporter from our fleet to meet your brief. Whether you are moving several vehicles or just the one, or you have specific technical requirements, we will develop the most suitable bespoke package for you.

CORPORATE DELIVERIES

Cars in Camera have extensive experience in corporate vehicle delivery and enjoy an enviable reputation in providing an efficient, professional service. Reliability is key for our clients who benefit from our infrastructure and latest mobile-worker software, used for digitised inspection and proof of delivery with image.

We appreciate that upon delivery or collection of a corporate vehicle, our drivers are an extension of our client's business, so we protect their reputation by being professional at all times.

FILM AND PROMOTION

Cars in Camera work in partnership with manufacturers, film production companies and agencies by delivering vehicles to be used in photo shoots, film and television, whether it's for exterior or interior shots, or for use in special effects. As part of our service, we provide on-set technical support as and when required.

We are known for our reliability, innovation and insight within the industry, and pride ourselves on the reputation we have built over many years.

PRESS AND EVENTS

Vehicles are often used in promotional events and exhibitions to add that eye-catching factor that draws in the crowds. Cars in Camera provide covered transport, thereby allowing the client to focus on other aspects of the event or promotion.
